Contract administration – where a great proposal, a detailed evaluation, and maybe a hard fought protest change into....the Contract. This program, presented by two experienced attorneys, will look at some of the key issues involved in contract administration. Presenters will blend law, regulation, and draw from their real-life experiences.

- The Changes clause, with a focus on both actual and constructive changes, including how and when to elevate any problems into a claim;
- Terminations for Convenience and Default, including cure notices and termination settlements;
- Novations and Change of Name Agreements, with an emphasis on deciding when they are needed, and when they are not;
- Government audit rights, both contractual and subpoena; and
- Compliance issues, with a focus on how good contract administration is an integral part of a good Compliance Program.

William Weisberg
